

## **Diane Buckshnis**

This Rotarian has two degrees and one is a psychology degree. This degree helped her on a number of occasions as she has travelled the world.

She has written more than 25 technical manuals but most of them are classified.

She has met scientists from the South Pole and NASA as she worked as a Program Manager and Technical Writer for a company that deployed weather systems to the Air Force.

She has been to the Pentagon and has dined with Generals, US Ambassadors, and even a President of a Foreign Country.

She has also met and dined with two of the most infamous Savings and Loan CEOs whose companies have caused the largest failures in America.

She has over 30 years experience reading financial statements and has taught classes on Commercial Loans to Businesses, Classifying Assets, Evaluating Business Ventures, and Understanding Cash Flows.

She spent five years in Lithuania helping them deregulate the Soviet structures and re-regulate their Central Bank by writing policies and procedure for safe and sound bank operating.
